SUMMARY

Full-Stack Developer with almost **2 years** of shipping production features at Shvasa across **Flutter, MERN stack, and Webflow**. Delivered **8+** end-to-end features including a gamified engagement platform, an **AI** mental-wellness journal, and a cross-platform search system. Ranked company web pages to **#1 on Google** via SEO and AEO strategy. Integrated **generative AI features (Gemini)** into production, with an AI-assisted development workflow (**Claude Code**).

EXPERIENCE

Full-Stack Developer

Shvasa

Dec 2024 – Present

Remote (US-based company)

- Collaborated in a small agile team of 4, specialising in frontend (React, Flutter) with full-stack contributions across mobile, web, and backend; accelerated delivery using **Claude Code** and **GitHub Copilot**.
- Designed **RESTful APIs in Express.js** with **MongoDB** handling **200K+ daily requests** under **100 ms** avg. response time. Used **Redis** for caching, **RabbitMQ** for async workflows, and **CRON** for scheduling.
- Shipped **iOS app features** and deployed production builds to the App Store via **Xcode** and **Fastlane**.
- Engineered **Sports Month** – a gamified inter-house competition platform with 6+ activity types, house **leaderboards**, wildcard power-ups, Rocket.Chat group chats, and a Stream.io **batch-notification nudge system**. Drove avg. session time up **30%** and retention up **10%**.
- Integrated a **Gemini Flash 2.5 AI counselor** into a journal feature that reads user entries and delivers personalized mental-wellness guidance; engineered per-session prompt context with a **5-chat-per-entry** limit for token cost control; reached strong user adoption across the platform.
- Launched **AI Pose Reimagination** – a shareable pose-collage builder, an **AI** image-regeneration feature with **8+** festival-specific admin prompts (Diwali, Holi etc.) using **Google's Gemini image model (Nano Banana)**, and an in-app Stream.io story feed with reactions and comments; significantly increased shareable content and Shvasa's Instagram-tagging rate by **10%**.
- Executed **Global Search** across 4 categories using MongoDB Atlas Search with fuzzy matching and compound indexing – **Elasticsearch**-equivalent in performance. Facet aggregation cut DB queries by **50%**; 500 ms **debounce** reduced API calls by **80%**. Shipped on React and Flutter.
- Released **Year Wrap** – a Spotify Wrapped-style annual review with batch MongoDB data-mining pipelines and one personalized downloadable video per user. **80%** of users downloaded and shared their Wrap, driving measurable word-of-mouth growth.
- Managed **150+** Webflow pages, CMS collections, and **450+** blog content; executed **SEO and AEO strategy** that ranked **5+ pages to #1** on Google (US and IN) and secured top-5 Google AI placements; lifted **CTR from 6% to 15%**, scroll depth by **15%**, and conversion by **2%**; cut bandwidth costs by **50%**.
- **Automated user onboarding** via Integrately (form to CRM, Slack alert, system provisioning, free trial, and email sequence) and built **Stripe and Cashfree direct-checkout for 4 micro-product** landing pages with post-payment provisioning and abandoned-payment recovery emails.
- Deployed a **React Joyride site tour** with step-level tracking for new vs. returning users; built **5+ admin dashboards** covering onboarding funnels, engagement analytics, and a paginated audit log of **1000+** daily customer support actions.
